

AUTHENTICALLY AFRICAN

Todd Nelson, president and owner of Kalahari Resorts, chose an authentic African theme for his resorts after a family trip to the Kalahari region of Africa where he discovered the rich cultural offerings and distinctive wildlife the beautiful continent has to offer. Nelson returned to Wisconsin Dells and made the commitment to bring a dose of his experience back to the Midwest and share Africa's culture, stories and legends with Kalahari guests.

Since then, Kalahari Resorts has invested heavily in authentic African décor, furnishings and artwork by appointing a team to visit Africa each year to handpick items and continue to enhance the resort's extensive offerings. Items that adorn Kalahari Resorts

include: indigenous carvings, exotic masks, artistic glass pieces and handcrafted furnishings.

Kalahari Resorts is currently in the process of developing vignettes to highlight artifacts and detail the history and heritage of the art and décor featured in the resorts.
